SUMMARY

Creative Full-Stack Software Developer with experience working with Reactjs, Vuejs and PHP/Laravel is seeking an internship role where I can apply my skills and sharpen (i.e. learn and grow) as a Developer. I would also like to build on my experience by building products and solving problems with timely technological inventions.

SKILLS

- Proficient in JavaScript, HTML, CSS and Reactjs.
- Proficient in Laravel and Vuejs
- Good knowledge of MySQL and PHP

EXPERIENCE

Hotels.ng Internship 2020 (Remote)

Web Application Developer

Hotels.ng Internship also is known as HNG Internship is a remote internship carried out over a period of 3 months where interns are trained to be professional developers enabling them to enter the job market after successful completion. I played major roles in implementing and developing web applications using JavaScript, Vuejs and Laravel

Google Build for SDG Challenge Second Cohort 2020 (Remote)

Web Application Developer

Built web applications to achieve sustainable development growth. Using one of Facebook technologies (Reactjs).
